## Profile

---

Enthusiastic problem solver with a flair for continuous learning with a degree in Physics which sharpens my analytical and critical thinking skills. Passionate and results-driven full-stack developer with a comprehensive skill set in HTML5, CSS3, JavaScript, Axios, Redux, JSON handling, Express, and PostgreSQL. Known for delivering user-centric and visually appealing interfaces, I bring a strong commitment to clean and efficient code, ensuring optimal functionality and an exceptional user experience. My physics background enhances my ability to tackle complex problems systematically and think outside the box. A quick learner and adaptable professional, I thrive in dynamic environments and excel in collaborating with cross-functional teams. Eager to contribute my technical expertise to innovative projects and be part of a forward-thinking organization.

## Professional Experience

---

### Freelance Full-Stack Developer, Notemaster

*Remote* | April 2024 - June 2024

- Developed a comprehensive note-taking web application for a client, ensuring a seamless user experience and responsive design.
- Implemented full-stack features using HTML5, CSS3, JavaScript, React, Axios, Redux, Node.js, Express, and PostgreSQL.
- Collaborated closely with the client to gather requirements and provide regular updates, ensuring the project met all specifications.
- Integrated third-party APIs to enhance functionality and streamline user interactions.
- Applied version control using Git and GitHub to manage project code base efficiently.

## Projects

---
